PROFESSIONAL SUMMARY

Flutter Developer with 3+ years of experience architecting and shipping 5+ production-grade, cross-platform mobile applications used by 10,000+ active users. Skilled in Dart, Firebase, RESTful API integration, and state management (Bloc/Provider), with hands-on experience setting up CI/CD pipelines and build automation using GitHub Actions. Strong track record of improving app performance, reducing crash rates, and accelerating release cycles within agile teams.

EXPERIENCE

Flutter Developer — 28 Infotech *Mar 2023 – Present | Surat, India*

- Architected and deployed 5+ production-grade cross-platform mobile apps using Flutter & Dart, achieving 99.5% crash-free sessions across 10,000+ active users
- Optimized app performance through lazy loading and efficient state management (Bloc, Provider), cutting load times by 40% and improving retention by 25%
- Integrated the Firebase ecosystem (Authentication, Firestore, Cloud Storage) and RESTful APIs for real-time data sync and secure user authentication
- Set up CI/CD pipelines and build automation with GitHub Actions to automate testing, builds, and releases, shortening release cycles
- Led end-to-end app deployment to Google Play Store and Apple App Store, maintaining 4.5+ star average ratings and full platform compliance
- Reduced production bugs by 60% by implementing unit, widget, and integration testing alongside structured code review practices

PROJECTS

StudioDesk – Studio Manager | *Flutter, Firebase, Firestore, Google Sign-In* *2026*

- Independently built and published a studio-management app for photographers and creative studios, with client & lead tracking, branded PDF quotation generation, and a revenue/ledger analytics dashboard
- Implemented secure Google Sign-In auth and real-time cloud sync across devices; live on Google Play with a 5.0 rating

QKalp PYQs | *Flutter, Laravel, MySQL, REST API* *2026*

- Owned the app end-to-end: built the Flutter frontend and independently designed & developed the backend REST API using Laravel (PHP) and MySQL
- Delivered topic-wise previous-year questions, custom mock tests, and a clean, distraction-free reading interface for competitive exam aspirants
- Published on Google Play Store, reaching 10,000+ downloads with a 4.6-star rating across 250+ reviews

Box Cricket Admin App | *Flutter, Firebase, Bloc, RESTful APIs* *2024*

- Built a cricket-ground management platform for venue owners covering real-time bookings, pitch availability, and revenue tracking
- Designed an admin dashboard with filters, analytics, and role-based access for sub-admins, driving a 35% gain in operational efficiency; 3,000+ downloads at a 4.6-star rating

Book Your Studio | *Flutter, Firebase, Razorpay/Stripe* *2023*

- Developed an event-booth booking platform with secure, PCI-compliant payment integration and automated booking confirmations
- Built real-time availability tracking with conflict resolution and calendar sync, supporting 5,000+ bookings at 98% uptime

TECHNICAL SKILLS

Languages: Dart, PHP, C, C++, HTML, CSS, SQL

Mobile Development: Flutter, Cross-platform Development, Material Design, Responsive UI, Clean Architecture

State Management: Bloc, Provider, Riverpod, GetX

Backend & APIs: Laravel, Firebase (Auth, Firestore, Storage, Cloud Functions), RESTful APIs, JSON

Database: Cloud Firestore, MySQL, SQLite

CI/CD & DevOps: GitHub Actions, CI/CD Pipelines, Build Automation, Git, GitHub, GitLab

Tools & Testing: VS Code, Android Studio, Xcode, Postman, Unit & Widget Testing, Google Play Console, App Store Connect

Practices: Agile/Scrum, Code Review, SOLID Principles

EDUCATION

C.K. Pithawalla College of Engineering, GTU — BE, Computer Engineering *2020 – 2023*

Bhagwan Mahavir University, GTU — Diploma, Computer Engineering *2016 – 2020*
